

Ultra-Compact, Lightweight CCD Monochrome
Cameras With or Without IR Sensitivity

Key Features

COMPACT DIMENSIONS make CS8600 Series cameras ideal for space-sensitive industrial vision applications. All six models measure 29 x 29 x 32mm and weigh only 50g

FULL FEATURED performance includes random trigger shutter, external sync, pixel clock output, restart/reset, AGC and choice between either 1/2" (8620 cameras) or 1/3" (8630 cameras) standard CCD or IR sensitive CCD

NEAR INFRARED SENSITIVE CCDs are featured in the "H" models and are able to capture clear images under near IR conditions

SIGNAL-TO-NOISE is greater than 60dB to assure excellent results in all fields of image processing such as factory automation, machine vision and image measurement

HIGH RESOLUTION imaging with 570TV lines

OUTPUT CHOICES of either CCIR or EIA

CS8600 Series
